H. Vincent Poor is the Michael Henry Strater University Professor at Princeton University, where he is engaged in research and teaching in wireless networks, energy systems, and related fields. He received his Ph.D. in EECS from Princeton in 1977, and from then until joining the Princeton faculty in 1990, he was on the faculty of the University of Illinois at Urbana-Champaign. He has also held visiting positions at several other universities, including most recently at Berkeley and Cambridge. During 2006-16, he served as Dean of Princeton’s School of Engineering and Applied Science, in which role he led a major expansion of the School’s size and influence driven in part by a successful $325m capital campaign.

Dr. Poor is a member of the U.S. National Academy of Engineering and the U.S. National Academy of Sciences, and is a foreign member of the Chinese Academy of Sciences, the Royal Society, and other national and international academies. Recent recognition of his work includes the 2017 IEEE Alexander Graham Bell Medal, the 2019 ASEE Benjamin Garver Lamme Award, and honorary doctorates from Syracuse University and the University of Waterloo, awarded in 2017 and 2019, respectively. He has served as a consultant or advisor to a number of technology companies and other organizations, and is currently serving as a director of Hyster-Yale Materials Handling (NYSE: HY), and on the boards of several non-profit organizations including the Corporation for National Research Initiatives, the IEEE Foundation, the National Academy of Engineering, and Swarthmore College.
